

September marks the end of summer and the beginning of a new school year for most children. Children diagnoses with cancer, in most cases, do not share in the excitement of a new school year; new clothes, new books, new friends! Some are hospitalized, many are home schooled.

“GOLD RIBBON DAYS”

The gold ribbon is the official ribbon of children with cancer worldwide.

On the first school day and on EVERY school day, 46 children or *two entire classrooms* of children are diagnosed with cancer.

Childhood cancer is the leading cause of death by disease among U.S. Children under age 15. Every year 4000 children die from cancer... That's 11 children... every single day ... every single year.

- Wear a gold ribbon to honor and remember children with cancer, and those who lost their battle.
- MAKE A DONATION to help fund our programs that ease their burden.

 Childhood
 Cancer
 Awareness
 Month*

Meet Sarah:

Sarah was diagnosed with Acute Lymphoblastic Leukemia on February 7, 2002. Sarah fought a brave and courageous battle against her leukemia, which was very aggressive. Our Purple Heart logo is tribute to her courage. Sadly, after all she had been through, Sarah lost her battle with leukemia on November 9, 2002 - she was 12.
